

# 4965 TH80 pneumatic tire lifter

## Pneumatic clamping tool for TH80

Project supervisor:

Carlos Enmark, TAWI AB

Project number: 4965

Project engineer: Mikael Kayser

Lifting: Tires

Used with: Pneumatic tool on TH80 wire hoist

Max capacity, this version: 80 kg

For diam. 50-70 mm and thickness 10-60 mm.

Simple solution to awkward manual handling.

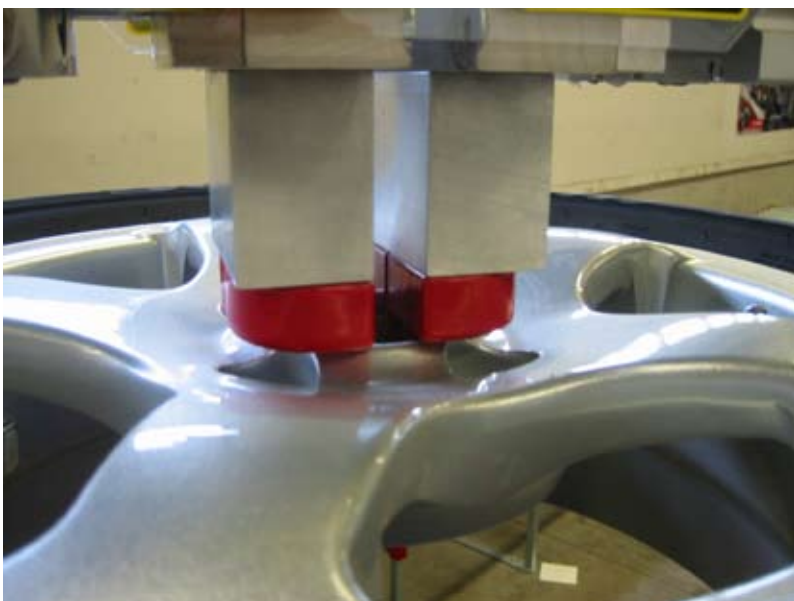

Insert gripper into tire center, use the handle to release grippers. Lift with TH80 handle.

Move tire manually with the crane system trolley.
